Dear George:

Thank you for your recent letter answering mine of 7 May 1956 on the subject of purchase orders.

I believe the possible trouble areas you listed would not be likely to produce any serious problems, but in order to be on the safe side with respect to purchase orders issued henceforth we will include a provision deleting clauses 19, 25 and 26 (thus making effective clauses 20 - 24). I take it from your letter that you would consider such action appropriate. In the event that you view it otherwise, please let me know.
